Surface cleaner TD 420 with suction

The choice of perfection

Material mix: The use of brushes and rubber lips guarantee clean suction and allow the cleaner to work smoothly. Heat-resistant and protects against splashes and flying particles.

High-performance swivel joint: For the highest demands with a long service life. Triple ball bearings with extremely high-quality carbide sealing elements.

Male thread: For 1/4" connection.

Sophisticated solution: The integrated holding bracket for the vacuum hose ensures easy and safe use without the risk of tripping.

Easy height adjustment: Guarantees the best possible distance from the ground.

Swivels
110 degrees

Integrated bracket support: Ensures that the bracket remains in an upright position even during breaks in work and protects attached parts such as the gun and vacuum hose.

Soft: ergonomic handle.

ST-2605 **LTF**

We recommend using the gun ST-2605 with our patented LTF technology.

Holding
bracket

Removable push bar: For space-saving storage.

Low vibration: Balanced rotor arm in robust quality.
