

Rubber hose bend restrictor in wave design - showing your company logo!

We offer you the possibility to combine your personal spray guns ST-2300 and ST-2600 with your individual hose bend restrictor, this is possible from 350 pieces. You are invited to choose your favourite colour of your hose bend restrictor and to think about what you would like to have written on it or which logo you would like to see on it. It is really up to you as you can give free rein to your creativity! The lettering on the two fields is solely determined by you. By means of labelling your personal hose bend restrictor you succeed in enhancing the product itself and also in making your company and brand better known.

The hose bend restrictor very bendable and also flexible at low temperature is equipped with a lip that engages behind the crimp cartridge and avoids any loosening. It is characterized by a very smooth surface structure, oil and abrasion resistance.

The black and yellow versions are recommended to be used for outdoor applications. The blue and grey hose bend restrictor is especially designed for being used inside as for example in the food industry. It is generally phthalate-free, resistant to chemicals as well as chlorine- and grease resistant in all colours.

colour	colour-number	nominal diameter	D1	D2
red	1040	DN 8	14.6	21.7
