ST-49 Ball type nozzle, 30°

Made out of wear-resistant, hardened stainless steel provided with front jet insert or blind plug (interchangeable). Angle of jet is 30°, sturdy wall thickness, long service life and a minimum of wear and tear. All nozzles are provided with hardened stainless steel inserts. Due to this feature the efficiency is considerably higher compared with those nozzles with drilled holes and the service life is several times longer.

Max. 500 bar

Applications:
» Suitable for removal of sludge deposits
» Desilting of pipes
» Opening of frozen pipelines

Jet angle INFO

30° = more efficient wall cleaning
20° = better traction
