Mosmatic flex-brush wand – no more washing without coin slot!

**Flex-mechanism:** The Flex-Brush has an additional feature compared to all existing wands. It's the wobble feature! This will allow the brush head to wobble when not under pressure and become solid when under pressure. The mechanism requires a minimum pressure of 2.5 bar to be used. This will happen through a pin which moves forward. As soon as the pressure drops, the pin will move back to its origin position and the brush head starts to wobble again.

**Integrated swivel (optional):** An integrated swivel at the inlet of the brush-wand will give you optimal freedom of movement.

In addition, the high pressure hose will not tangle up and will provide the user a secure handling.

**easywash365+ handle (optional):** for a safe and ergonomic handling.

easywash365+ handle optional
