

easywash365+ spray guns by Suttner

New freeze stop valves in **easywash365+** spray guns and freeze stop spray guns

The valves are made entirely of non-rusting materials.

Contrary to all commercially available freeze stop valves, the actual internal

valve body is made of a very wear-resistant, partially crystalline thermoplastic.

This difference significantly increases the robustness, reliability as well as preciseness in switching.

easywash365+ standard

LTF

Professional gun. Standard.
Max. 310 bar / 45 l/min / 150 °C
