

easywash365+ vertical boom

Absolutely new in the car wash industry!

- » Completely made out of stainless steel
- » Rotatable by 360°
- » Solid construction
- » Spring action

The vertical boom for single washing bays! This cost-efficient solution is ideal for smaller self-service motorcycle, bicycle or car washing bays. It is not absolutely imperative that the boom is incorporated in the technical board as it can be easily mounted on the wall. Therefore, the vertical boom is also the perfect solution for areas with a shortage of space. Due to its compact design not much room is needed, but however a high degree of mobility is given. The radius of 360° as well as the built-in spring guarantee best possible mobility when carrying out the washing.

The **easywash365+** vertical boom is completely made out of stainless steel. A mounting bracket is included in the consignment.

Technical specifications:

Height 2,008 mm.
Weight 4.4 kg

easywash365+ suction swivel arm

New for self-service vacuum cleaning

- » entirely made out of stainless steel
- » solid construction
- » suspension

The vertical **easywash365 + suction swivel arm** for self-service! This cost-effective solution is ideal for single suction places. In this case, the arm does not necessarily have to be integrated into the cabinet technology, but can be easily mounted on a wall. Perfect if space might be limited, because due to its construction this boom needs little space and bending over offers a lot of mobility.

The built-in spring prevents kinking of the suction hose and allows a barrier-free handling with optional freedom of mobility.

The vertical **easywash365 + suction swivel arm** is completely made out of stainless steel and is supplied including a mounting bracket.

Height 2,320 mm.
