

# Rotatable hose sleeve for Car Wash vacuum hoses

The choice of perfection

**Ideal for your carwash area**

- 360 ° rotatable
- tight connections
- full suction power

**The ideal connection:**

Use with the highly abrasion-resistant and dirt-resistant Car Wash vacuum hoses from our range.

## Rotatable hose sleeve for self-service car washes

- Swivel connection for easy vacuuming in the carwash area
- Sealed connection from the crevice nozzle to the suction tube
- No loss of suction power, especially when using several vacuum bays
- Easy installation with DN 38 Car Wash vacuum hoses and nozzles with approx. 45 or approx. 58 mm inner diameter

Ø 45 mm / 58 mm

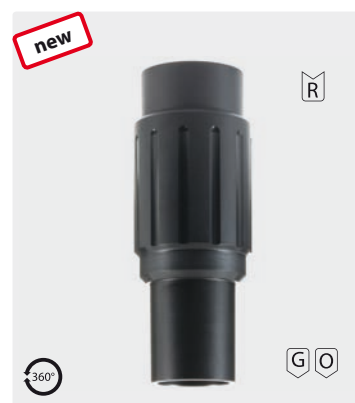

Easy and safe mounting: a tight connection.

**Swivelling sealed connection**
